Baku; Azerbaijan

Dear Recipient:

It is my pleasure to recommend Rustam Gurbanov for employment with your organisation. I have known Rustam for over several months during time while he was trained as a frontend developer in the coding bootcamp ABB Tech that we had been running already for over 2 years. I have been consistently impressed with Rustam's attitude and productivity during the time that we jointly worked together. Rustam is both very bright and highly motivated. I am confident that he will devote himself to a position with your organisation with a high degree of diligence. He is a quick learner and has shown the ability to digest large volumes of information within a limited amount of time.

As an enthusiastic and customer oriented technologist with hands-on skills in a wide range of software, tools, and programming languages, he is well positioned to leverage his abilities and qualifications to thrive as your next Front-end Developer.

Over the period that we worked together, Rustam as a Front-end Developer has designed, developed, and launched customised, highly responsive websites and e-commerce solutions using advanced technologies. In addition, he has consistently met client expectations and project milestones while working effectively in deadline-driven environments.

I recommend Rustam without reservation. I am confident that he will establish productive relationships with your staff and stakeholders. Please let me know if you have need for additional information on provided reference.

Sincerely,

Zaur Alakbarov
